

Hobart 120lt Bin Surround

Model 88758 - Hobart 120lt Bin Surround

DRAFFIN
Street Furniture

The Hobart Bin Surround represents true value for money. Heavy-duty fully welded construction usually found in premium bin surrounds, but due to the weathered steel construction there are reduced costs in production, thus making the Hobart Bin Surround the strongest yet economical bin surround on the market. The natural patina layer will develop under the influence of weather conditions over time and protect the bin surround from further corrosion.
