

Draffin Street Furniture Recycled Plastic Guide

A growing number of products from Draffin Street Furniture feature Recycled Plastic. Made in a 25mm sheet form and cut into shapes for some of our most popular products, including our Satellite furniture suite. A material sourced locally and made from 100% post-industrial recycled polymers, making use of this waste resource and diverting it from landfill. Recycled High Density PolyEthylene or “HDPE” can also be recycled at the end of its service. This hardy material is totally waterproof and resistant to most chemicals and UV light, wont rot, split or crack and therefore requires little to no maintenance.
